HOW TO ASSEMBLE YOUR KEYBOARD STAND
In the box, you should have the following:

1 x X-brace keyboard Legs with adjustment plate (a)
1 x X-brace keyboard Legs without adjustment plate (b)
1 x Pair of base poles (1x with wide holes [outer] (c) and 1x with narrow holes [inner] (d))
1 x Pair of keyboard base (1x with wide holes [outer] (e) and 1x with narrow holes [inner] (f))
8 x Screws
1 x Allen key

Inner holes keyboard base
f

Outer holes keyboard base
e

Inner most legs run parallell to each other and both are on the inside

Adjustment plate is facing upwards

Outer most legs run parallell to each and both are on the outside

Adjustment knob is facing to the outside

a

b

Outer holes base pole
c

Inner holes base pole
d

STEP ONE

Grab both sets of the X-brace keyboard legs (a & b).

Ensure that the legs running parallell to each other are both facing the inside and the other legs are facing outside. (see Figure 1)

The X-brace legs that have the adjustment plate, must have the adjust knob facing the outside and the half-circle adjustment plate must be facing upwards. (See Figure 2)

CORRECT

Inner most legs run parallell to each other and both are on the inside

facing outside

facing inside

Outer most legs run parallell to each and both are on the outside

facing inside

facing inside

INCORRECT

To fix this, simply rotate these two legs to swap their positions

Inner most legs run parallell to each other, but one leg is on the inside, and one leg is on the outside

facing outside

facing inside

Outer most legs run parallell to each other, but one leg is on the inside, and one leg is on the outside

facing inside

facing outside

Figure 1

**CORRECT**

Facing Up

INCORRECT

Facing Down

Figure 2

STEP TWO

Grab both base poles (c & d). These go on the bottom of the stand.

One will have pre-drilled screw holes that are closer together than the other base pole. Align each one correctly to the X-brace legs. (See Figure 3)

Using the provided screws & allen key, screw the X-brace legs to the base poles.

Figure 3

Figure 4

STEP THREE

Grab both keyboard bases (e & f). These go on the top of the stand.

One will have pre-drilled screw holes that are closer together than the other base pole. Align each one correctly to the X-brace legs. (See Figure 4)

Using the provided screws & allen key, screw the X-brace legs to the keyboard bases.

Your stand should now be complete and look like this:
